TECHNOLOGY TRENDS

AI & Machine Learning

AI and machine learning are maturing and becoming integrated into more products and services

Digital Sustainability

Using digital technologies such as software and machine learning to drive emission reduction and cost efficiency.

Cloud Modernization

Balancing the capabilities of the public cloud with the control and privacy of on-premises infrastructure.

Citizen Dev 2.0

Organizations can form relationships easier when they are open with their data and supporting resources.

Cybersecurity

Securing networks remains a top priority and goes together with educating the workforce about cyber security.

AMARATECH SOLUTIONS

DARK WEB ID – COMPROMISE MONITORING

- 24/7/365 compromise, Exposure and Account Take over Monitoring
- Monitors Domains, personal emails, IP Addresses and Supply Chains
- Have visibility into compromised Personal identifiable information (PII)

PHISHING & SECURITY TRAINING

- Phishing Simulator & Security Training Awareness
- Benefits; Ease of use, Automation, and Customization
- Can be used as Learning Management

PENETRATION TESTING

- Identify Security Gaps
- Real-time tracking of attacks and findings
- Move beyond compliance and meet industry best practices
- 90% of those businesses have fewer than 20 employees and simply can't afford to spend thousands of dollars for an annual penetration test.

That's where we come in!

Endpoint Protection & Managed Detection Response

- 24/7 service to stop attacks targeting your customers' computers, network, cloud workloads, email, and more
- Sophos services and technology mitigate risk and help satisfy cyber insurance eligibility requirements
- Unrivalled Ransomware Prevention

BUSINESS EMAIL COMPROMISE (EMAIL SECURITY)

- Implement advanced email filtering systems to detect and block phishing emails.
- Deploy multi-factor authentication (MFA) to prevent unauthorized access.
- Monitor network traffic for suspicious activities using AI-based threat detection tools.
- Advanced protection against malicious URLs and attachments

AZURE CLOUD SOLUTION & IT MODERNIZATION

Leverage Cloud Solutions such as Microsoft Azure to modernize and scale IT infrastructure

“ YOU'RE NOT TOO SMALL TO GET HACKED. YOU'RE JUST TOO SMALL TO MAKE THE NEWS ”

WHY WORK WITH US

Customer Centric

We build a strong and reliable partnership with you to help you achieve your business goals.

Experience

Our team has 15+ years of industry experience and multiple certifications.

Reliability

Our integrated approach to project development seamlessly blends creativity with business acumen. We carefully design each element of your services to be visually appealing while delivering concrete business value.

Solution Agnostics

We are committed to providing tailored IT solutions that drive tangible, measurable end-to-end results.

Join Us in Turning Africa into a Sustainable Development Partner.

We're building Technology Solutions for Tomorrow Digital Solutions.

You're not too small to get hacked.

You're just too small to make the news.
